B : Parents discussed the benefits of being bilingual and bicultural as well as different ways they could assist in children's learning process of two or more languages

Home Language Campaign - Knowledge of More Than One Language Helps Build the Child's Brain 11/6/2015

Parents and their children demonstrated how to play fun games to empower their children to keep their home languages.

Home Language Campaign - A Parent-Teen Conversation 11/20/2015

☐ Parents shared their own challenges and difficulties of adjusting American culture and English language. They also shared their positive and negative experience of supporting their children's adjustments of two languages and two cultures.

Home Language Campaign - A Parent-Teen Conversation 11/20/2015

5 Adolescents shared their experience and personal stories of growing up in multilingual and multicultural environments. They also discussed the challenges of speaking two or more languages and belonging to two nationalities or cultures as well as the benefits. Finally, they also suggested actions they wish their parents, educators and the school had done differently.
